Human Physiology

Heart and Liver

The Power of Discernment - When Thoughts become Deeds

An Exploration

with Patries Orange, Eurythmist
and Lakshmi Prasanna, Physician

"Lakshmi and Patries are offering a series of workshops in relation to the human physiology. We live our own physical reality without much question. All is taken for granted until it becomes a disturbance. In our quest for meaning and direction in our life, the wisdom of our physiology shows us an example of profound collaboration of cosmic proportions! Anthroposophy gives us a pathway to explore and mobilise experiences through which we can arrive at an understanding of the spiritual nature of the human being. Patries' and Lakshmi's unique way of collaboration creates an atmosphere of 'action research'. All of us are part of this exploration through the presentations, movement, eurythmy and conversations. No previous attendance or experience is needed. Each workshop stands on its own. These workshops are appropriate for anyone who is interested in life and its many mysteries!"

Dates: On Saturday, 13th February 2016, 9.00am - 4.30pm
and Sunday, 14th February 2016, 10.00am - 2.30pm
